

Greetings,

The Nebraska Environmental Health Association is hosting the bi-annual National Environmental Health Association (NEHA) Region IV Fall Conference at the DoubleTree in Omaha, NE from September 25 to September 26, 2019.

The Nebraska Environmental Health Association is a non-profit organization staffed completely by volunteers. All profits earned from the silent auction and conference will be used to improve the quality and reduce the price of continuing education for members. Region IV NEHA consists of six states ND, SD, MN, WI, IA and NE. Membership includes environmental health professionals that specialize in food, air and water protection and many other diverse fields.

We are seeking sponsors, vendors and speakers for this unique event. Your organization is strongly connected to Food Safety or Environmental Health and would benefit from being a participant. Every participant will have their organization name mentioned with their contribution on our website, our advertisements and on our full agenda. We invite you to consider participating.

Thank you for your consideration. Please contact us directly with any questions.

Sarah Pistillo, President-Elect
Nebraska Environmental Health Association
1111 S. 41st Street
Omaha, NE 68105
